### Glossary

**Built to Non U.S. Standards**

Vehicle previously registered or titled outside of the U.S. and may not comply with U.S. safety and emissions standards.

**Failed Emissions Inspection**

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Federal and State law requires that you state the mileage upon transfer of ownership. Failure to complete or providing a false statement may result in fines and/or imprisonment.

The odometer now reads (no tenths), miles and to the best of my knowledge reflects the actual mileage unless one of the following statements is checked.

WARNING  Odometer reading is not the actual mileage.  Mileage exceeds the odometer mechanical limits.

Re: Ferrari

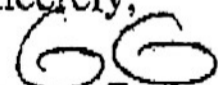

Dear !

We would like to thank you for your interest in our company for your automotive conversion needs. We have been in business for over twenty years and we are the largest modifier in the country, having modified thousands of vehicles. We are certified by California as well as government agencies, (DOT and EPA).

The cost to modify your vehicle is \$12,500.00. The estimated time is 8-10 weeks. G&K Automotive Conversion Inc. will allow a \$1,500.00 deduction for a new Cat and speedometer.

If you have any further questions, please do not hesitate to call, fax, or email me at [george@gnkauto.com](mailto:george@gnkauto.com). Thank you.

Sincerely,

  
George Gemayel

DESCRIPTION OF MERCHANDISE IF MOTOR VEHICLE EQUIPMENT			

1. The vehicle is 25 or more years old or the equipment item was manufactured on a date when no applicable Federal Motor Vehicle Safety, or Theft Prevention Standard was in effect. [591.5(i)]

2A. The vehicle, chassis-cab or equipment item conforms with all applicable Federal Motor Vehicle Safety Standards (or the vehicle does not conform solely because readily attachable equipment items which will be attached to it before it is offered for sale to the first purchaser for purposes other than resale are not attached), and Bumper and Theft Prevention Standards, and bears a certification label or tag to that effect permanently affixed by the original manufacturer to the vehicle or chassis-cab, or affixed by the manufacturer to the equipment item or its delivery container in accordance with applicable National Highway Traffic Safety Administration (NHTSA) regulations [591.5(b)]; or

**Attachment:** For chassis-cab entry, see Box 9.

2B. The vehicle conforms with all applicable Federal Motor Vehicle Safety Standards of Canada and the United States except for minor labeling requirements, and I am importing it for personal use.

**Attachment:** Copy of manufacturer's confirmation letter.

3. The vehicle does not conform with all applicable Federal Motor Vehicle Safety and Bumper Standards, but does conform with applicable Federal Theft Prevention Standards, but I am eligible to import it because NHTSA has determined that the model and model year of the vehicle to be imported is eligible for importation into the United States and I have furnished a bond, which is attached to this declaration, in an amount equal to 150 percent of the entered value of the vehicle as determined by the Secretary of the Treasury. If the Administrator of NHTSA determines that the vehicle has not been brought into compliance with all such standards within 120 days after importation, then I state that I will deliver such vehicle to the Secretary of the Treasury for export, or abandon it to the United States [591.8]; and that

a. I have registered with NHTSA pursuant to 49 CFR Part 592 and such registration has not been revoked or suspended; or

b. I have executed a contract or other agreement, which is attached to this declaration, with an importer who has registered with NHTSA and whose registration has not been suspended or revoked. [591.5(f)]

**Attachments:** Copy of DOT Bond; and  
Copy of Contract with a Registered Importer, if applicable.

4. The vehicle or equipment does not comply with all applicable Federal Motor Vehicle Safety, Bumper and Theft Prevention Standards, but is intended solely for export and is labeled for export on the vehicle or equipment item, and the outside of any

d. I will obtain from the Office of Foreign Missions of the State Department, before departing the United States at the conclusion of a tour of duty, an ownership title to the vehicle good for export only; and

e. I have attached a copy of my official orders. [591.5(h)(1)]

Name of Embassy: \_\_\_\_\_

**Attachment:** Copy of Official Orders.

7. The vehicle or equipment does not comply with all Federal Motor Vehicle Safety and Bumper Standards, but is being imported solely for the purpose of research, investigations, show or display, demonstrations or training, or competitive racing events, and I state that I will comply with the applicable restrictions on importers of such merchandise [591.7] and I will provide the Administrator with documentary proof of export or destructions not later than 30 days following the end of the period for which the vehicle has been admitted into the United States. [591.5(j)]

**Attachment:**

a. Copy of NHTSA permission letter if the importer is not an original manufacturer of motor vehicles (or a wholly owned subsidiary thereof) that are certified to comply with all applicable Federal Motor Vehicle Safety Standards (FMVSS). Use on the public roads must be authorized specifically. [591.6(f)(1) or (2)];

b. Importer's statement describing the use to be made of the vehicle or equipment item if the importer is an original manufacturer of motor vehicles (or a wholly owned subsidiary thereof) that are certified to comply with all applicable FMVSS. If use on the public roads is an integral part of the purpose for which the vehicle or equipment item is imported, the statement shall describe the purpose which makes such use necessary, state the estimated period of time during which use of the vehicle or equipment item on the public roads is necessary, and state the intended means of final disposition (and disposition date) of the vehicle or equipment item after completion of the purpose for which it is imported. [591.6(f)(3)]

8. This vehicle was not manufactured primarily for use on the public roads and thus is not a motor vehicle subject to the Federal Motor Vehicle Safety, Bumper and Theft Prevention Standards or the equipment item is not a system, part, or component of a motor vehicle and thus is not an item of motor vehicle equipment subject to the Federal Motor Vehicle Safety Standards. [591.5(a)]

**Attachment:** Importer's substantiating statement. [591.6(a)]

9. The vehicle or equipment item requires further manufacturing operations to perform its intended function, other than the addition of readily attachable equipment items such as mirrors, wipers, or tire and rim assemblies, or minor finishing operations

Translation of letter from my Uncle in Milan, Italy

Dear ( \_\_\_\_\_ )

I hope you are keeping well and also your family.

As you requested in your telephone call, here is the letter to confirm that you stayed with me and your cousin Fiorella from the period end of August to the end of November 2000.

You left only to go to The Netherlands and Greece but the rest of the time you were here using your Ferrari in Milano.

I do hope that this letter of mine will help you, many dear regards to Kathy and the kids and a big hug to you

Uncle Ferruccio

Via Regina S  
Milano, Italy.

20 Aprile 2001

Carissimo -<sup>o</sup>

Spero che stai bene, così pure come la tua bella famiglia.

Come per la tua richiesta al telefono, eccoti qui la mia lettera che conferma il tuo soggiorno a Milano, con me e con tua cugina Fiorella, entro il periodo fine Agosto fine Novembre 2000.

Si sei assentato solo di qualche giorno per andare in Olanda e Grecia, ma per il resto del tempo hai usato la tua Ferrari estensivamente qui a Milano.

Con la speranza che questa mia lettera ti sia d'aiuto, tanti cari saluti a Kathy e bambini, a te un grosso abbraccio

- I certify that the vehicle or heavy-duty engine has been modified in accordance with the provisions of a currently valid certificate of conformity. EPA has approved the plan for me to receive information concerning OEM running changes that affect emissions and therefore testing was not required. (40 CFR 85.1505(a)(2)(i))
- I certify that the vehicle or heavy-duty engine has been modified in accordance with the provisions of a currently valid certificate of conformity. If applicable, a Federal Test Procedure was performed on the vehicle or heavy-duty engine in accordance with procedures in 40 CFR Part 86 at a laboratory in the U.S. (40 CFR 85.1505(a)(2)(i))
- I certify that the vehicle or heavy-duty engine has been modified and the Federal Test Procedure was performed on the vehicle or heavy-duty engine in accordance with procedures in 40 CFR Part 86 at a laboratory in the U.S. The emission testing and development of fuel economy data were performed after modification to Department of Transportation safety standards. (40 CFR 85.1509(g)(2))
- I certify that the vehicle or heavy-duty engine has been modified and the Federal Test Procedure was performed in accordance with procedures in 40 CFR Part 86 at a laboratory in the U.S. because it qualifies for the transition period option in 40 CFR 85.1509(b)-(f). The vehicle is the same make and fuel type as the vehicle for which I have received an EPA certificate of conformity. The emission testing and development of fuel economy data were performed after modification to Department of Transportation safety standards.
- I certify that the vehicle or heavy-duty engine is a new Canadian vehicle on EPA's pre-approved list.

21. I certify that as the certificate holder or designated importer of new Canadian vehicles I have provided or will provide the following to the purchaser or owner of the vehicle or heavy-duty engine: (1) written instructions for maintenance and use as required by 40 CFR 85.1510(a) (not for designated importers of new Canadian vehicles), (2) an emissions warranty as described in 40 CFR 85.1510 (b), sections 207(a) and (b) of the Clean Air Act and 40 CFR Part 85, Subpart V, (3) an emission label as required by 40 CFR 85.1510(c) and 40 CFR Part 600, Subpart D, (4) a fuel economy label as required by 40 CFR 85.1510, (d) and 40 CFR Part 600, Subpart D. I certify that as the certificate holder or designated importer of new Canadian vehicles I have complied with the applicable provisions of the Energy Act of 1978, 26 USC 4064 (gas guzzler tax) and for vehicles not owned by me, I have provided the applicable tax forms to the owner; I have complied with the Corporate Average Fuel Economy requirements of the Energy Policy and Conservation Act, 15 USC 2001 et seq. and 40 CFR Part 600; I have complied with the requirements of 40 CFR 80.24 to affix applicable unleaded fuel labels; I am responsible for the vehicle or heavy-duty engine compliance with Federal emission requirements regardless of whether I own the vehicle or heavy-duty engine, I certify that I have read and understand the warning above regarding the submission of false or fraudulent statements or concealing a material fact, and the prohibited acts in 40 CFR 85.1513 and that the information I have provided is correct. I understand that EPA Enforcement Officers are authorized to conduct inspections or testing otherwise permitted by 40 CFR Part 85 or other applicable provisions of the law. I will hold this vehicle for at least 15 working days (3 working days for designated importers of new Canadian vehicles) from the date of EPA's receipt of this final admission information unless otherwise notified by EPA.

Caro Enzo e Giulia,

Grazi per la email. e per le spiegazioni che, purtroppo, non alleviano i miei dubbi sull'eccessivo costo che state imponendomi.

Parecchie delle riparazioni citate non erano mai state menzionate durante il nostro rapporto in Italia:

No.1 - Lo specchio: LIT.1.300.000 avrebbe dovuto comprendere l'interruttore, per il quale adesso domandate LIT.119.000;

No.2 - Catalizzatori: il nostro meccanico in Los Angeles mi ha assicurato che i presenti catalizzatori non sono nuovi, quindi sono obbligato a domandarvi come questo errore è stato possibile, visto che mi avete addebitato di ben LIT.3.000.000. Se tu mi assicuri che i catalizzatori sono veramente nuovi, per cortesia mandami un fax della fattura così che io posso mostrare questa al mio meccanico in Los Angeles.

No. 3 - Valvola Marmitta LIT.1.920.000, Enzo avevi promesso di cambiarla senza costo per me. Per quale ragione adesso il costo mi viene addebitato?

Sono veramente sconcertato che tu non rispondi alle mie domande che due o tre mesi dopo. Per piacere vediamo di rimanere amici e rispondi a queste questioni che sono importanti per me.

Saluti

( ) FREQUENCY VALVE	<u>N/A</u>	<u>N/A</u>

The catalytic converter (CAT) is an emission reducing device, designed to reduce exhaust gases (HC, CO, NOX) prior to the exhaust being emitted into the atmosphere. See schematic page 3.

The oxygen sensor (O<sub>2</sub>S) operates in conjunction with the computer control (Lambda) and Frequency valve if so equipped. The O<sub>2</sub> sensor senses oxygen in the exhaust ahead of the CAT. The O<sub>2</sub> sensor then sends a signal to the computer control (Lambda) which in turn opens and closes the frequency valve at a very high rate to constantly adjust the air/fuel ratio. See schematic page 3, 4, and 6.

The A.I.R. system (Air pump, Diverter valve or Pulse air) if so equipped, pumps ambient air into the exhaust system to aid the CAT in the oxidation process. See schematic page 4.

The exhaust gas recirculation valve, (EGR) if so equipped, recirculates a portion of exhaust gas back into the intake system to dilute the intake mixture, which in turn reduces the combustion chamber temperature in an effort to control oxides of nitrogen. The EGR valve is a vacuum operated device. See schematic page 4.

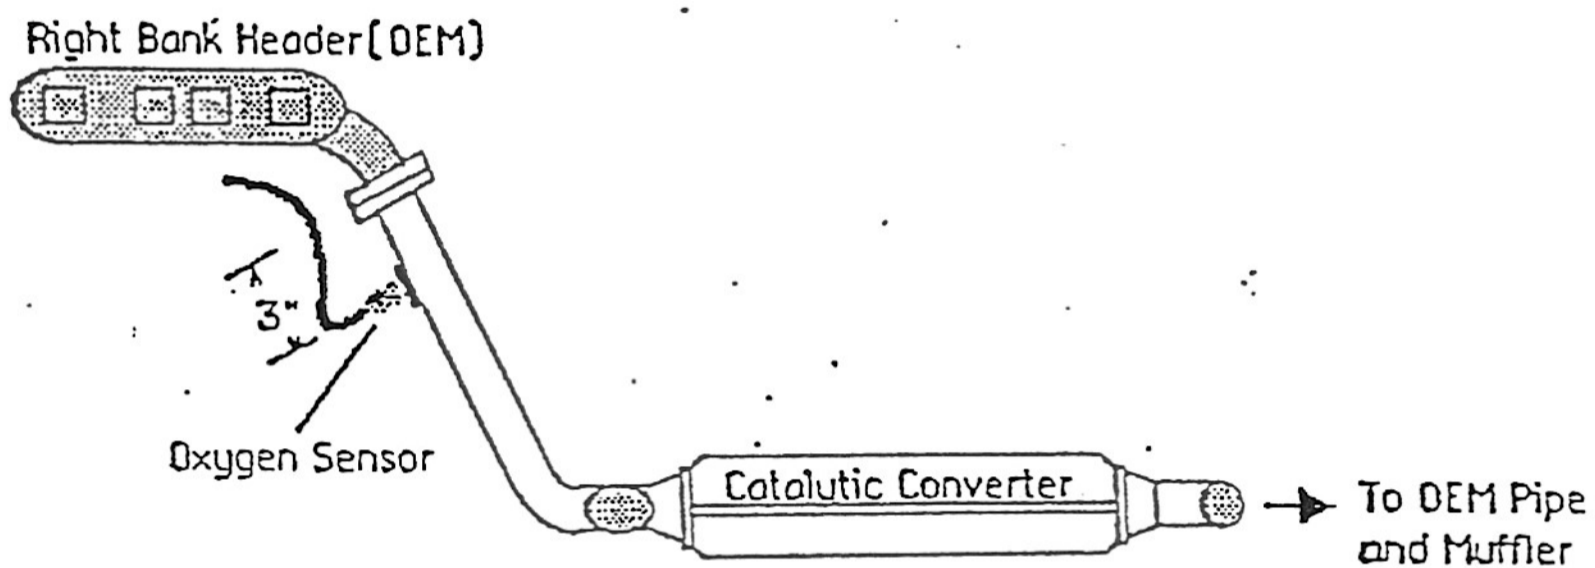

OWNER'S MANUAL INFORMATION  
EMISSION CONTROL INFORMATION  
(Continued)

The charcoal canister system consists of a charcoal canister, check valve and fuel line hose. The fuel line hose is attached to the gas tank vent line then runs to the check valve, from the check valve the line runs to the tank port on the charcoal canister. A vacuum line also runs from the vacuum port on the canister to a ported vacuum source to purge the canister. The check valve allows vapor to the canister but closes should any gasoline get in the vent system.

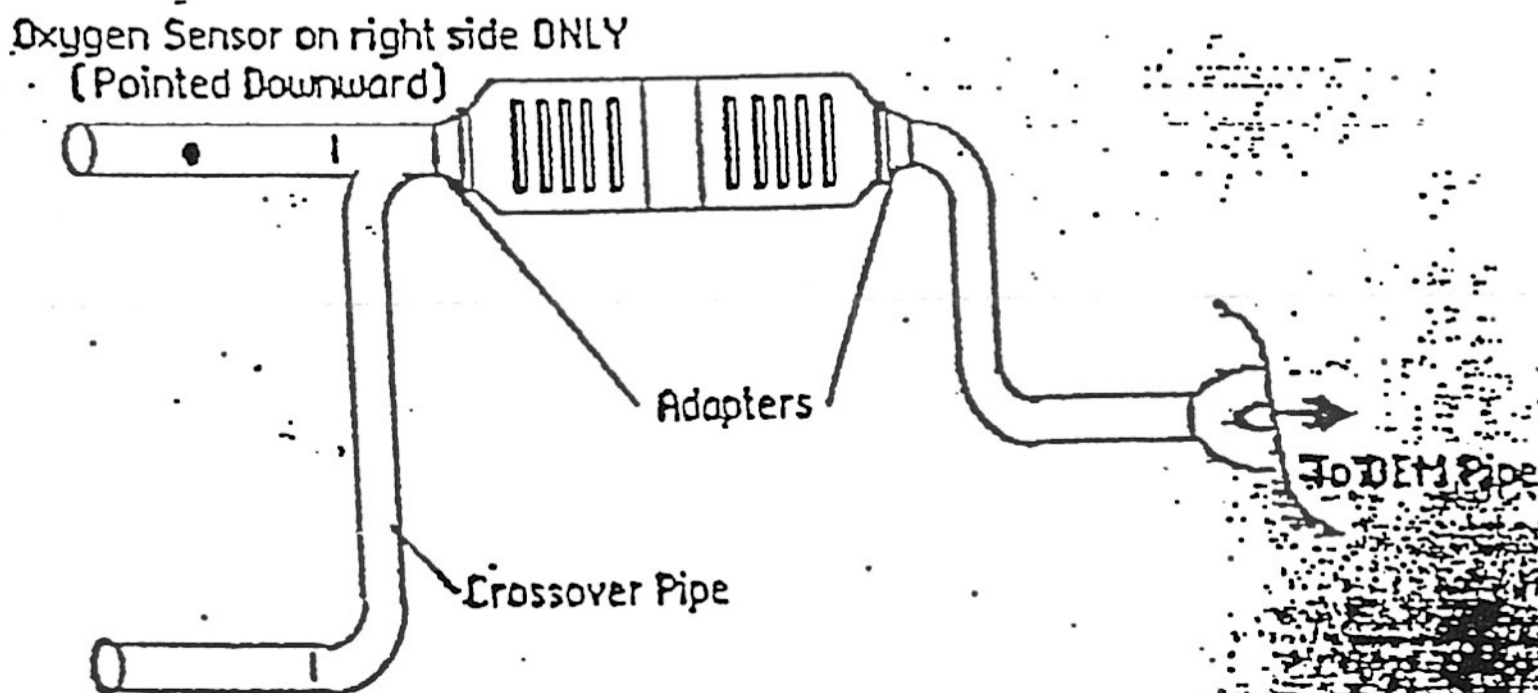

For periodic maintenance see maintenance schedule. All retrofit parts are available from Rhinetrade, Inc., phone number (714) 444-9120 or the original manufacturer listed on the parts list.

Should your mechanic have any technical questions regarding system diagnostic problems please refer him to AMG USA, INC., phone number (714) 545-7777. System function check should be done according to procedures outlined in any Mitchell Manual or manufacturer service manual.

## **G&K AUTOMOTIVE CONVERSION, INC. WARRANTY GASOLINE POWERED VEHICLES**

G&K Automotive Conversion, Inc. warrants to the original and each subsequent owner of a G&K Automotive Conversion, Inc. light-duty vehicle that (1) the vehicle was designed, built and equipped so as to conform at the time of sale to the original owner with the applicable regulations issued by the U.S. Environmental Protection Agency and (2) the vehicle is free from defects in materials and workmanship at the time of sale which would cause it not to conform with those regulations for a period of use of 5 years or 50,000 miles, whichever occurs first.

The 5 year/50,000 mile warranty period shall begin on the date the vehicle is delivered to the first purchaser or if the vehicle is first placed in service as a dealer demonstrator or G&K company vehicle prior to sale at retail, on the date the vehicle is first placed in such service. This 5 year/50,000 mile federal warranty period is in addition to any warranty coverage required under California regulations for California customers.

The emission control system of your 1995 FERRARI F355 was designed, built and tested, and the car is certified as being in conformity with Federal emission control regulations. Accordingly, it is recommended that any replacement parts used for maintenance, repair or replacement of the emission related components be Authorized Remanufactured Parts. The owner may elect to have maintenance, replacement or repair of the emission control devices and systems performed by any automotive repair establishment or individual, and may elect to use parts other than Authorized Remanufactured Parts for such maintenance, replacement or repair without invalidating this warranty: the cost of such service or parts, however will not be covered under this warranty.

Use of replacement parts which are not of equivalent quality may impair the effectiveness of the emission control systems. If other than Authorized Remanufactured Parts are used for maintenance, replacement or repair of components affecting emission control, the owner should obtain assurances that such parts are warranted by their manufacturer in performance and durability. G&K Automotive Conversion, Inc., however, assumes no liability under this warranty with respect to parts other than Authorized Remanufactured Parts.

Repairs covered by this warranty will be performed by an authorized dealer at his place of business with no charge for parts or labor (including diagnosis) using Authorized Remanufactured Parts for any part of the emission control system covered by this warranty found to be defective. In the case of an emergency when and where an authorized dealer is not available, repairs may be performed at any available service establishment. G&K Automotive Conversion, Inc. Will reimburse the owner for such repairs (including labor where required) that are covered under this warranty. Such reimbursements shall not exceed suggested retail prices for warranted parts replaced and labor charges based on recommended time allowances for warranty repairs at a geographically appropriate hourly labor rate.

Replaced parts and paid invoices must be presented for emergency repairs not performed at a dealer. Parts replaced under this warranty become the property of the warranty.

The attached list sets forth the emission related components covered by this emission control system warranty. You are advised to perform all recommended maintenance or repairs on your 1995 FERRARI F355. G&K Automotive Conversion, Inc. Will not deny a warranty claim solely because you have no record of maintenance, however, G&K Automotive Conversion, Inc. may deny a warranty claim if your failure to perform maintenance resulted in the failure of a warranted part. Receipts covering the performance of regular maintenance should be retained in the event questions arise in relation to vehicle maintenance. The receipts should be transferred to each subsequent owner.

This warranty does not cover:

1. Malfunctions in any part caused by any of the following: misuse, improper adjustments, modifications, alteration, tampering disconnection and improper or inadequate maintenance, or use of leaded gasoline (for catalyst equipped vehicles).
2. Damage resulting from accident, acts of nature or other events beyond the control of G&K Automotive Conversion, Inc.
3. The repair or replacement of warranted parts which are scheduled for replacement prior to 50,000 miles (such as spark plugs or air filter) once these parts have been replaced at the first recommended replacement interval as part of regular maintenance service.
4. Loss of time, inconvenience, loss of use of the vehicle, or other incidental or consequential damages.
5. Any car on which the odometer mileage has been altered so that the vehicle's actual mileage cannot be readily determined.
6. Repairs consisting solely of adjustments to idle speed, or valve clearance, or any combination thereof.

WITH RESPECT TO EMISSION SYSTEMS, THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTY OF

MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF THE WARRANTOR. G&K AUTOMOTIVE CONVERSION, INC. NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH SUCH EMISSION SYSTEMS.

Dear Importer:

The National Highway Traffic Safety Administration (NHTSA) acknowledges receipt of a certificate of compliance and payment of the bond processing costs for the vehicle imported on the following Customs entry:

Customs Entry No. & Date:	69201399453 JAN-03-2001
Port code:	2704
Vehicle Make & Model:	FERRARI 355
Vehicle Identification No:	ZFFPR48B000102248

The bond issued pursuant to 49 CFR 591.6(c) to ensure that the vehicle is brought into compliance with all applicable Federal motor vehicle safety standards may be released. This bond release does not constitute agreement by NHTSA that the vehicle, in fact, is in conformance with all applicable Federal motor vehicle safety standards since actual conformance with many requirements is determinable only by compliance testing. Please be advised that NHTSA reserves the right to make an actual compliance inspection of the vehicle at a future date to verify the accuracy of the Registered Importer's certificate.

Sincerely,

Marilynne Jacobs, Director  
Office of Vehicle Safety Compliance

**Job01 Top****Labor: \$1,000.00**

Performed diagnostic check and troubleshoot the drivers seat that did not return to original position and interrupted the convertible top operation.

Found that the drivers seat potentiometer was out of the resistance specs causing the top and seat not to function.

Removed drivers seat from the vehicle and removed unit.

Sent out potentiometer for repair and reinforcement update. New part is \$690.00

Assembled and calibrated unit.

Tested for proper operation.

**Job02 Stereo and Brake****Labor: \$440.00**

Removed stereo from the vehicle, opened unit and set the stereo to open position as requested. Unit needs to be replaced to properly work. Currently unit is disconnected because if key is turned on it sends power to the stereo and will get stuck again.

Removed covers for the parking brake, removed contact switch and repaired. Note, plastic on the contact switch is degrading and should be replaced.
