- [Learn more about this recall](#)

**Description:** Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has determined that certain MY12-17 C-Class, E-Class, E-Class Coupe vehicles (204, 207, 212 platform) have insufficient electrical grounding in the steering column components. In rare instances, if the steering column module is exposed to an electrostatic discharge, and if the steering column module clock spring is broken (due to wear), this could lead to an inadvertent deployment of the driver airbag. An inadvertent driver airbag deployment may cause a risk of injury to the driver and might increase the risk of a potential crash. A broken clock spring will illuminate the SRS warning light as well as display a warning message in the instrument cluster. An authorized Mercedes-Benz Dealer will install a sufficient ground to the steering column, and a protective ring to the steering column module.

An inadvertent driver airbag deployment may cause a risk of injury to the driver and might increase the risk of a potential crash.

**Remedy:** As a precautionary measure an authorized Mercedes-Benz dealer, will add sufficient grounding to the steering components on the affected vehicles.

------------	--	-----------------------	---

**Description:** Mercedes-Benz USA is recalling certain MY 2010-2017 C-Class, GLK-Class, SLS-Class and E-Class Coupe Mercedes-Benz vehicles equipped with passenger-side frontal airbags affected by the defect decision of TK Holdings, Inc. ( Takata ). Under certain circumstances during a crash that necessitates frontal airbag deployment, the defect in your passenger-side frontal airbag inflator may cause the inflator to explode. A passenger-side inflator explosion during deployment could result in metal fragments striking the front passenger or other occupants, possibly causing serious injury or death.

According to Takata, in the event of an inflator explosion, metal fragments could pass through the air bag cushion material, which may result in injury or death to vehicle occupants.

**Remedy:** An authorized Mercedes-Benz dealer will replace the passenger-side airbag.

## Glossary

[View Full Glossary](#)

---

**First Owner**  
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**Manufacturer Recall**  
Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

**New Owner Reported**  
When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

**Ownership History**  
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**  
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
